

Protein_aggregation_vs_subcellular_location

Initialization

Install all the needed libraries.

```
#install.packages("UniprotR")
#install.packages("BiocManager")
#BiocManager::install("Biostrings")
#BiocManager::install("GenomicAlignments")
#install.packages("sjmisc")
#install.packages("hash")
#install.packages("dplyr")
#install.packages("Peptides")
```

Load the needed libraries.

```
library(UniprotR)
library(sjmisc) # Used for str_contains
```

```
## Install package "strengexjacke" from GitHub (`devtools::install_github("strengexjacke/strengexjacke")`)
library(hash) # Used to make a dictionary
```

```
## hash-2.2.6.1 provided by Decision Patterns
```

```
library(dplyr) # Used for aggregate (get avg tango score of protein)
```

```
##
```

```
## Caricamento pacchetto: 'dplyr'
```

```
## I seguenti oggetti sono mascherati da 'package:stats':
```

```
##
```

```
##      filter, lag
```

```
## I seguenti oggetti sono mascherati da 'package:base':
```

```
##
```

```
##      intersect, setdiff, setequal, union
```

```
library(Peptides) # Used for charge (get the charge of a peptide sequence) ETC
```

```
library(ggplot2)
```

```
library(dplyr)
```

```
library(ggrepel)
```

```
library(tidyverse)
```

```
## -- Attaching packages ----- tidyverse 1.3.1 --
```

```
## v tibble  3.1.6      v purrr   0.3.4
```

```
## v tidyr   1.1.4      v stringr 1.4.0
```

```
## v readr 2.1.0 v forcats 0.5.1
## -- Conflicts ----- tidyverse_conflicts() --
## x tibble::add_case() masks sjmisc::add_case()
## x dplyr::filter() masks stats::filter()
## x purrr::is_empty() masks sjmisc::is_empty()
## x dplyr::lag() masks stats::lag()
## x tidyr::replace_na() masks sjmisc::replace_na()
```

Define the working directory.

```
directory = dirname(rstudioapi::getSourceEditorContext()$path) # Should work when data is placed in same directory
setwd(directory)
```

Load the data.

```
source("load_data.R")
return_value = read_data() # See load_data.R
data = return_value$data
hashed_proteins = return_value$hashed_proteins
rm(return_value) # To get rid of the extra memory usage
```

TANGO scores

```
source("tango_scores.R")
```

Average tango score distribution in all proteins

```
plot_average_tango_scores_complete_proteins()

## Warning: Removed 3 rows containing non-finite values (stat_boxplot).
## Warning: Removed 3 rows containing non-finite values (stat_summary).
```

```
plot_average_tango_scores_complete_proteins_joined_secreteted()
```

```
## Warning: Removed 3 rows containing non-finite values (stat_boxplot).
```

```
## Warning: Removed 3 rows containing non-finite values (stat_summary).
```

Average tango score distribution in proteins with an APR region

```
plot_average_tango_scores_APR_proteins()
```

Warning: Removed 1317 rows containing non-finite values (stat_boxplot).

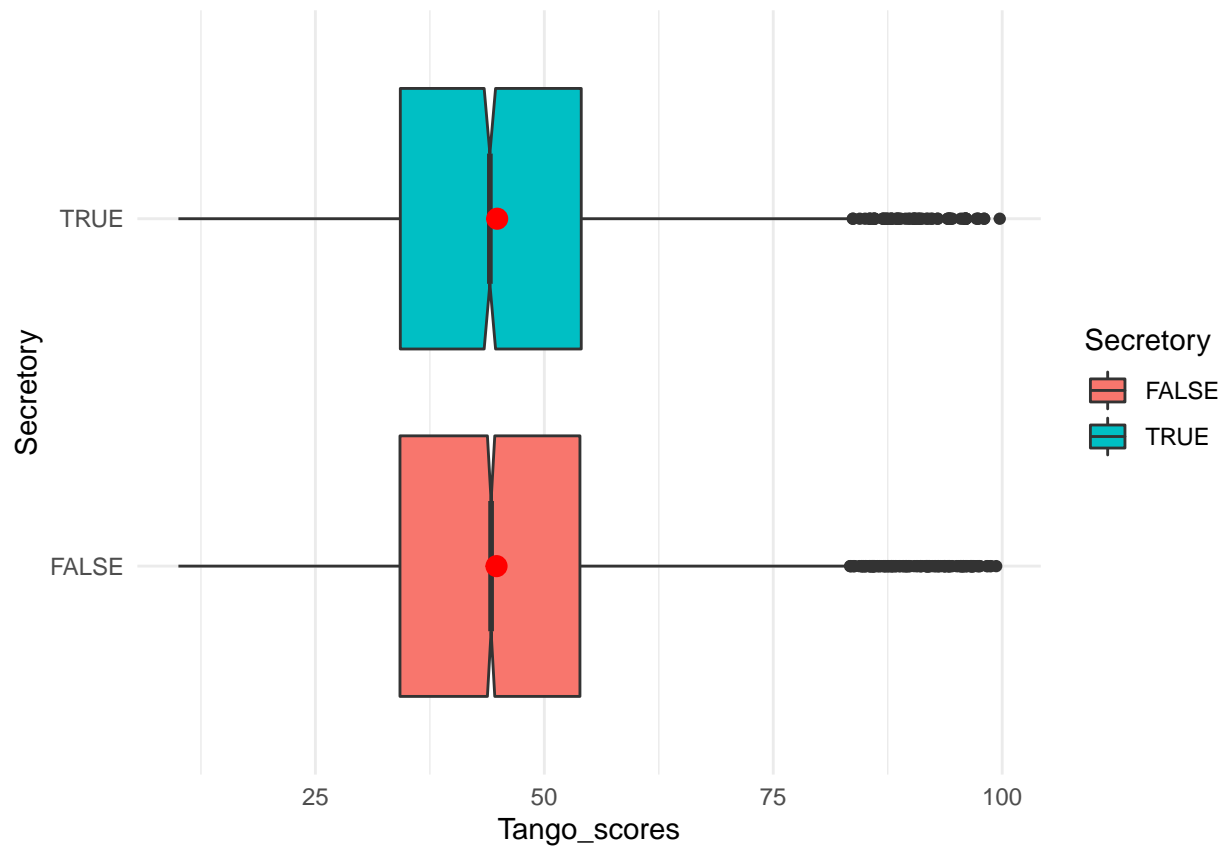

Warning: Removed 1317 rows containing non-finite values (stat_summary).

```
plot_average_tango_scores_APR_proteins_joined_secreted()
```

```
## Warning: Removed 1317 rows containing non-finite values (stat_boxplot).
```

```
## Warning: Removed 1317 rows containing non-finite values (stat_summary).
```

Distribution of maximal tango scores

```
plot_max_tango_scores()
```

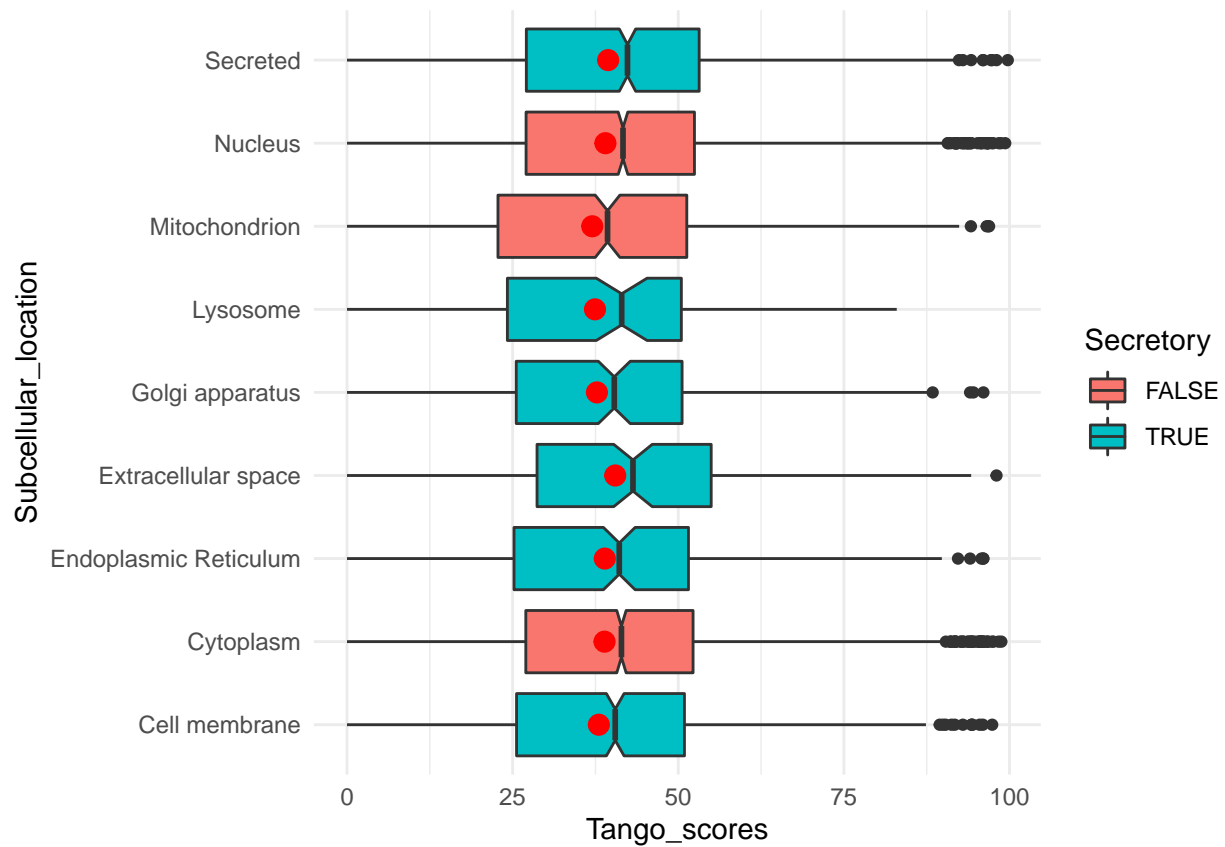

Distribution of number of APR regions per protein normalized for protein length

plot_average_tango_scores_complete_proteins()

Warning: Removed 3 rows containing non-finite values (stat_boxplot).

Warning: Removed 3 rows containing non-finite values (stat_summary).

```
plot_average_tango_scores_complete_proteins_joined_secreted()
```

```
## Warning: Removed 3 rows containing non-finite values (stat_boxplot).
```

```
## Warning: Removed 3 rows containing non-finite values (stat_summary).
```

Peptide charges

```
source("charges.R")
classify_subsets()
```

```
# TODO: make plots showing the differences between APR, GK and FR based on charges
# TODO: see if differences when split into subcellular locations
```

```
# protein_sequences_APR_peptides = get_charge(APR_peptides)
# protein_sequences_GK_peptides = get_charge(GK_peptides)
# protein_sequences_FR_peptides = get_charge(FR_peptides)
```
